HANIF IBRAHIM UMBARA

Software Developer - Mentor - Designer - Content Creator

PROFILE

Software developer and mentor with a designer's eye and a creator's drive. I build modern, responsive web interfaces with React, TypeScript, and Tailwind CSS, and I have mentored students in programming at seven schools across Bogor, Jakarta, and Bekasi. Active in entertainment since the age of 12, I run a YouTube channel with 38K+ subscribers and have learned video editing, graphic design, and digital marketing along the way. I love trying new things, going deep into them, and adapting quickly.
